

# HOW TO USE YOUR PUMPKIN STENCILS

**BLACK = CARVE AWAY**

## 1. PRINT IT

Print your favorite stencil on 8.5 × 11-inch paper.

## 2. PREP YOUR PUMPKIN

Ask a grown-up to cut the opening. Scoop out the seeds and pulp.

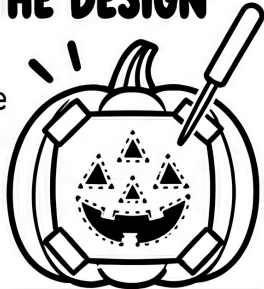

## 3. TAPE IT ON

Tape the stencil to the smoothest side of your pumpkin.

## 4. TRACE THE DESIGN

A grown-up can poke along the edges of the black shapes.

## 5. CARVE THE BLACK PARTS

A grown-up carefully cuts out all of the black areas.

## 6. LIGHT IT UP!

Use a battery-operated LED light and watch your pumpkin glow!

## SAFETY FIRST!

Grown-ups do all cutting. Keep sharp tools and small batteries away from little hands. Never use an open flame.

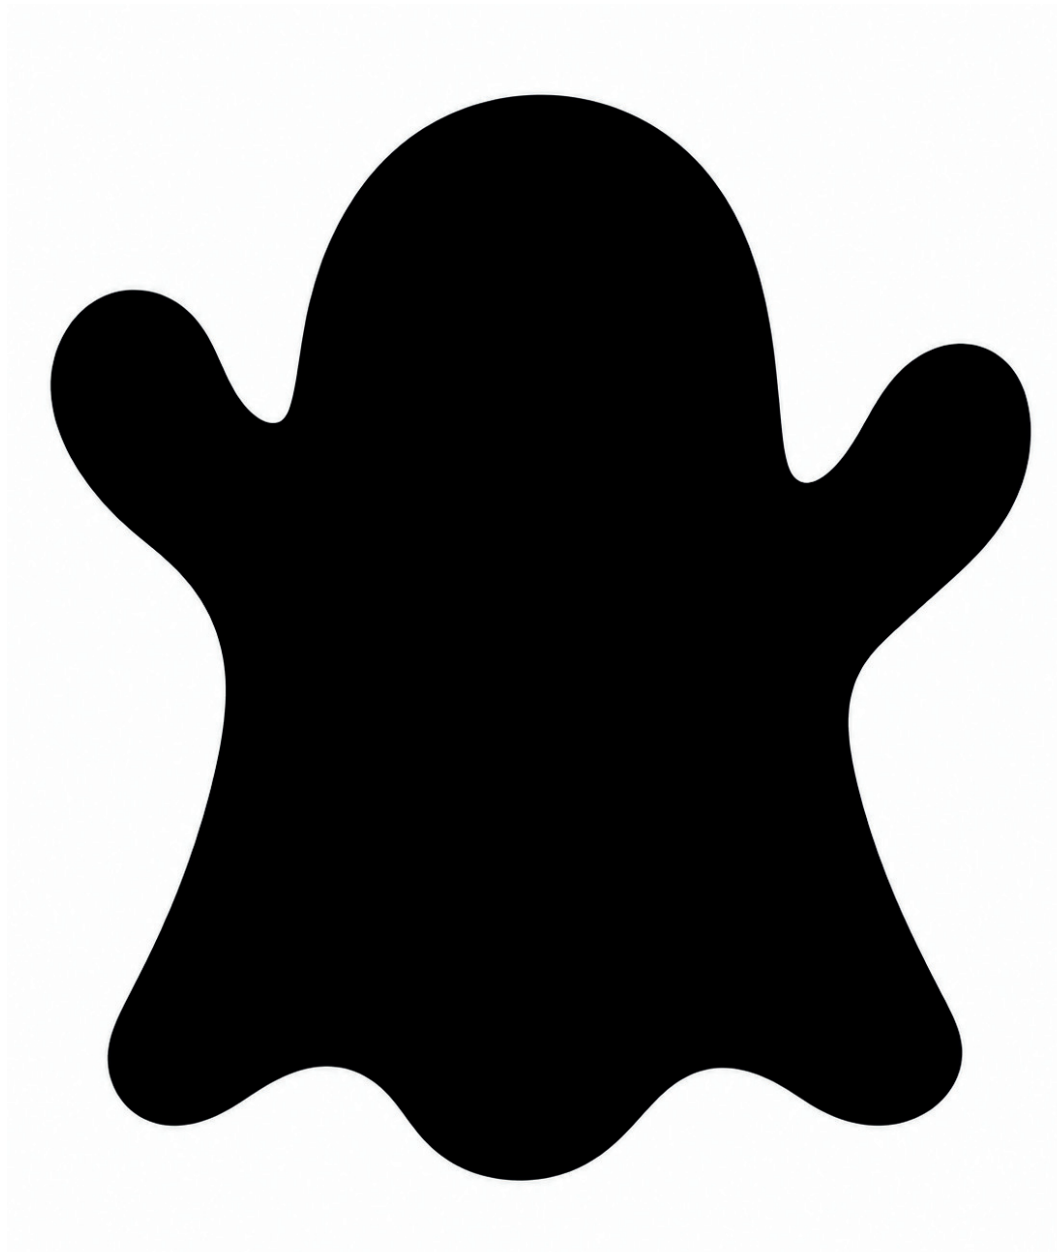

# HAVE FUN!

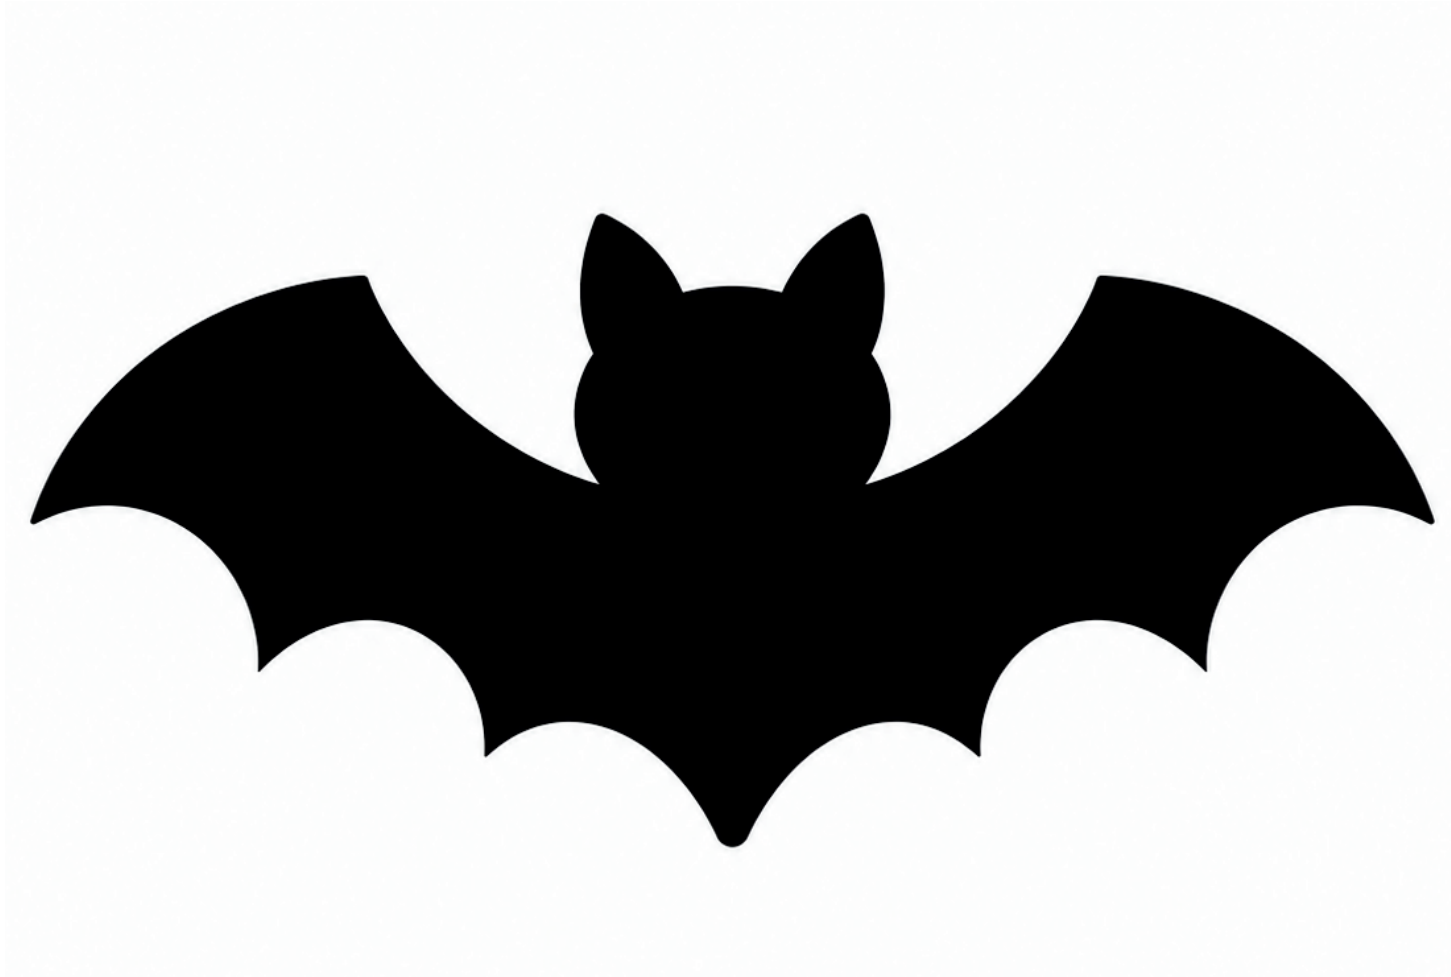

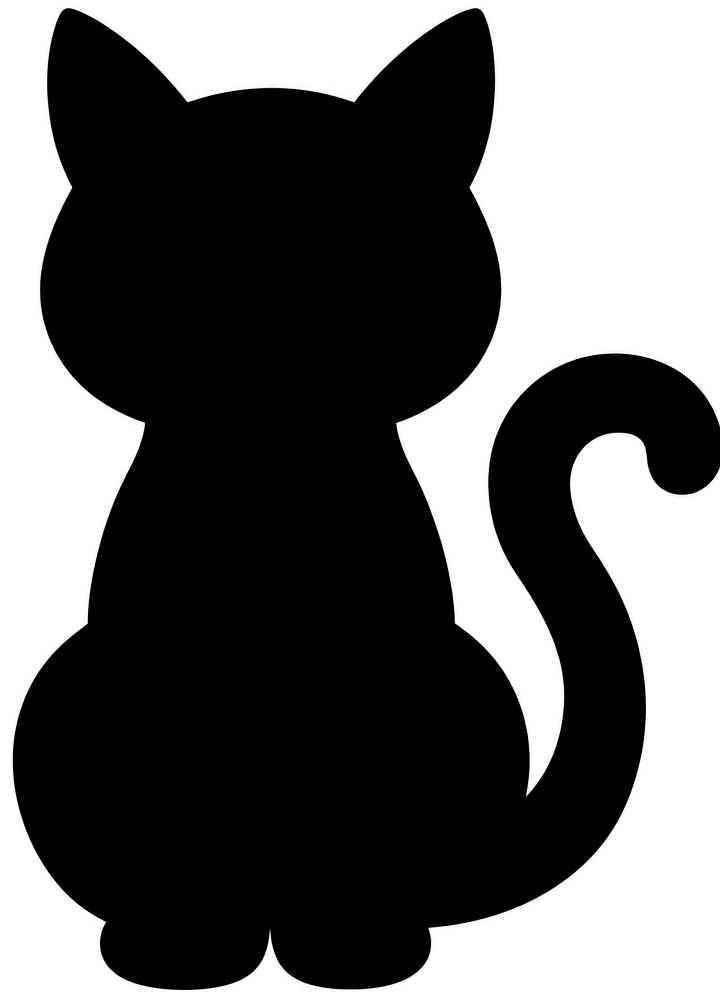

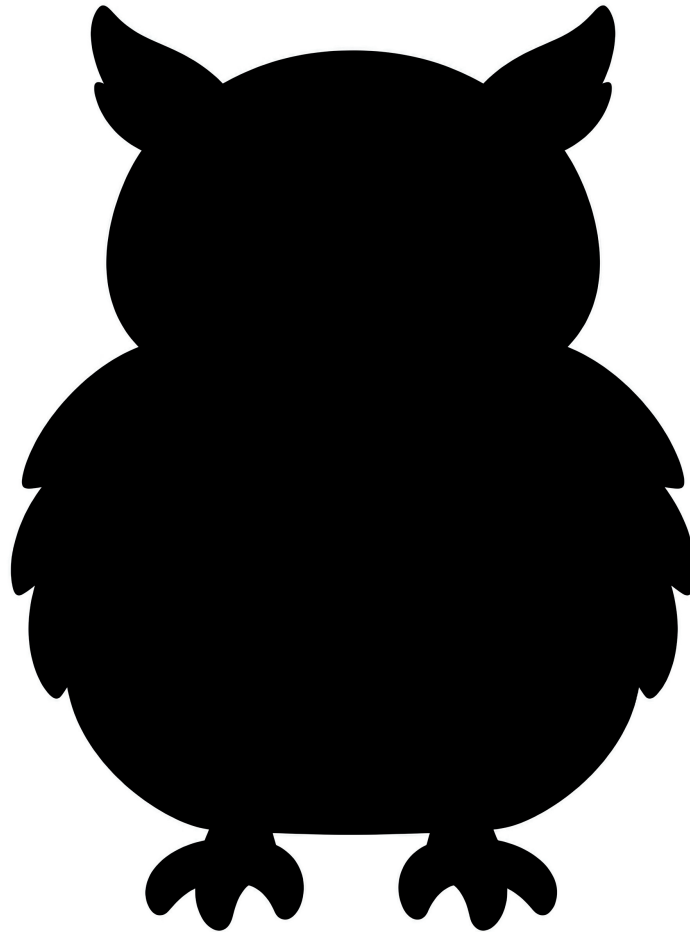

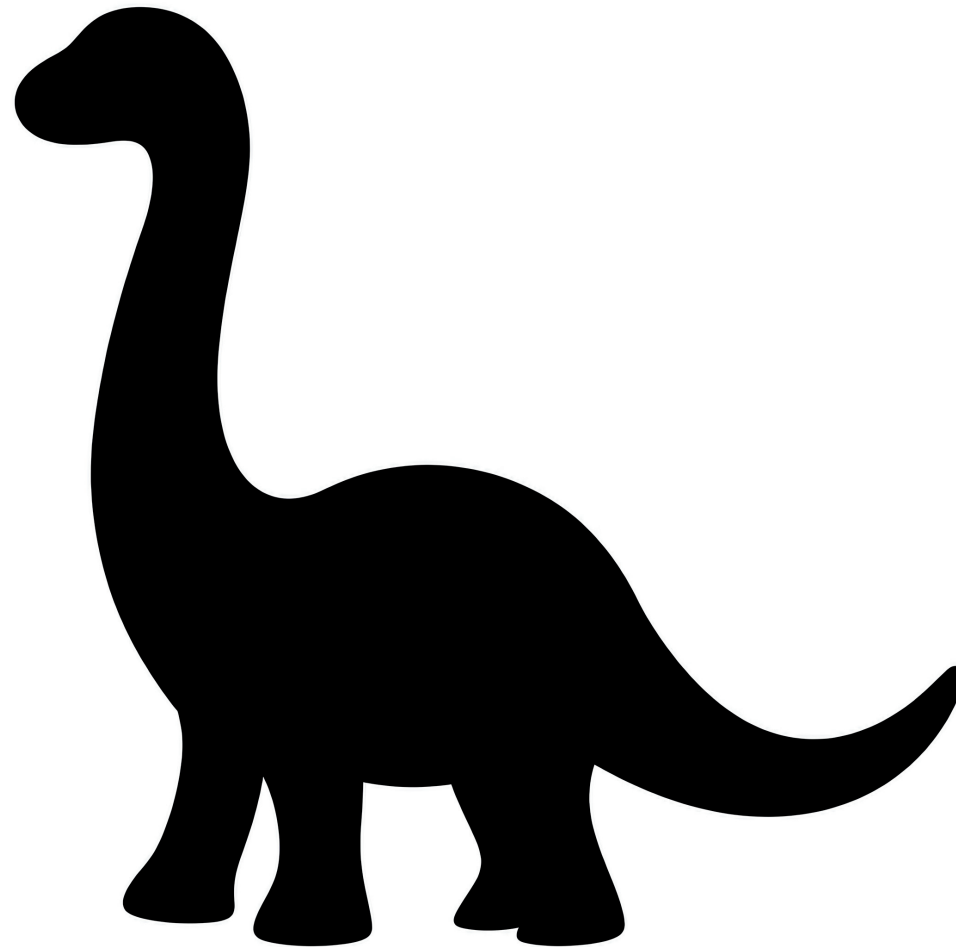

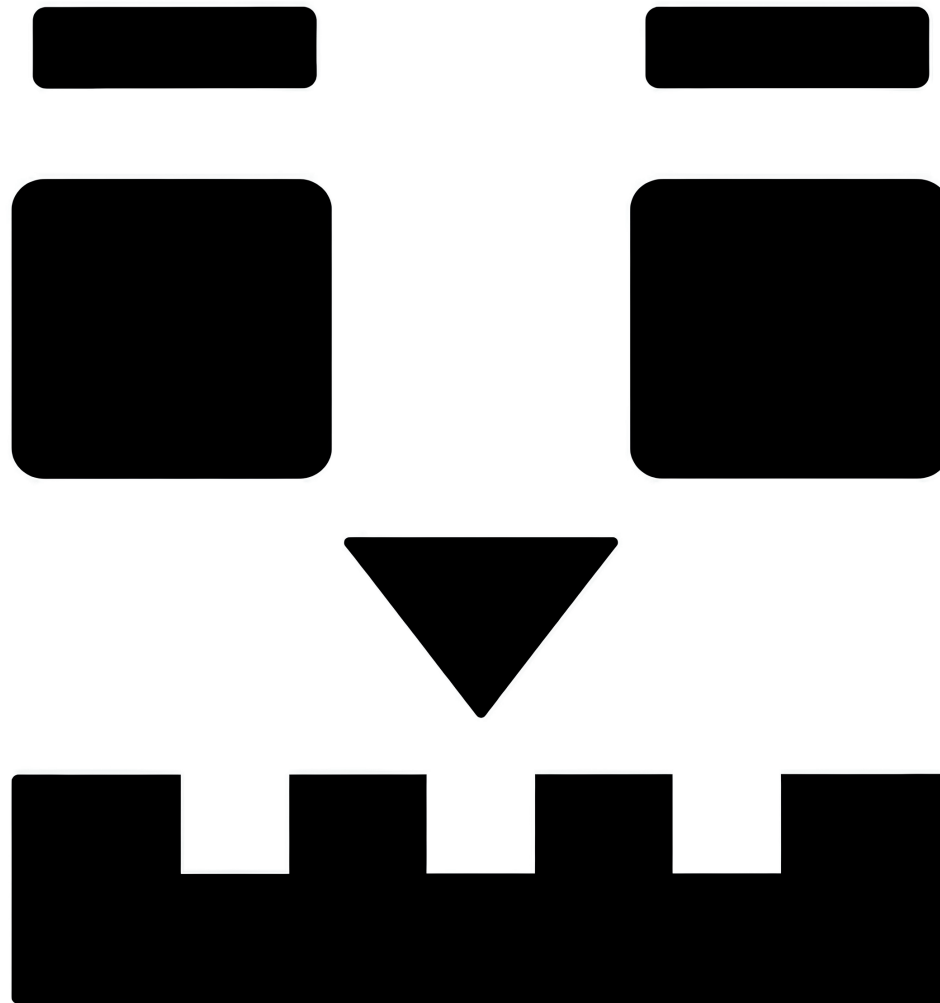

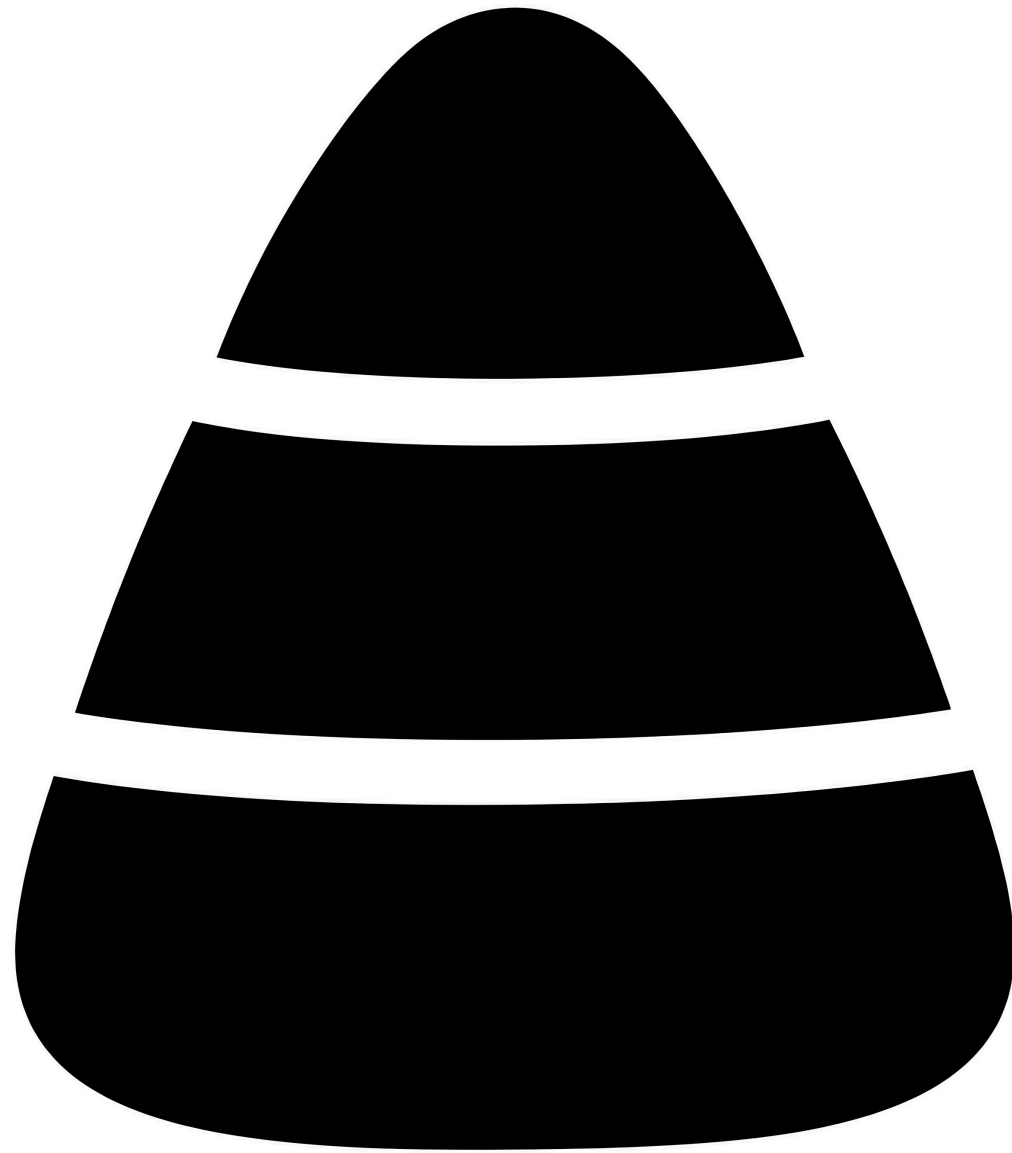

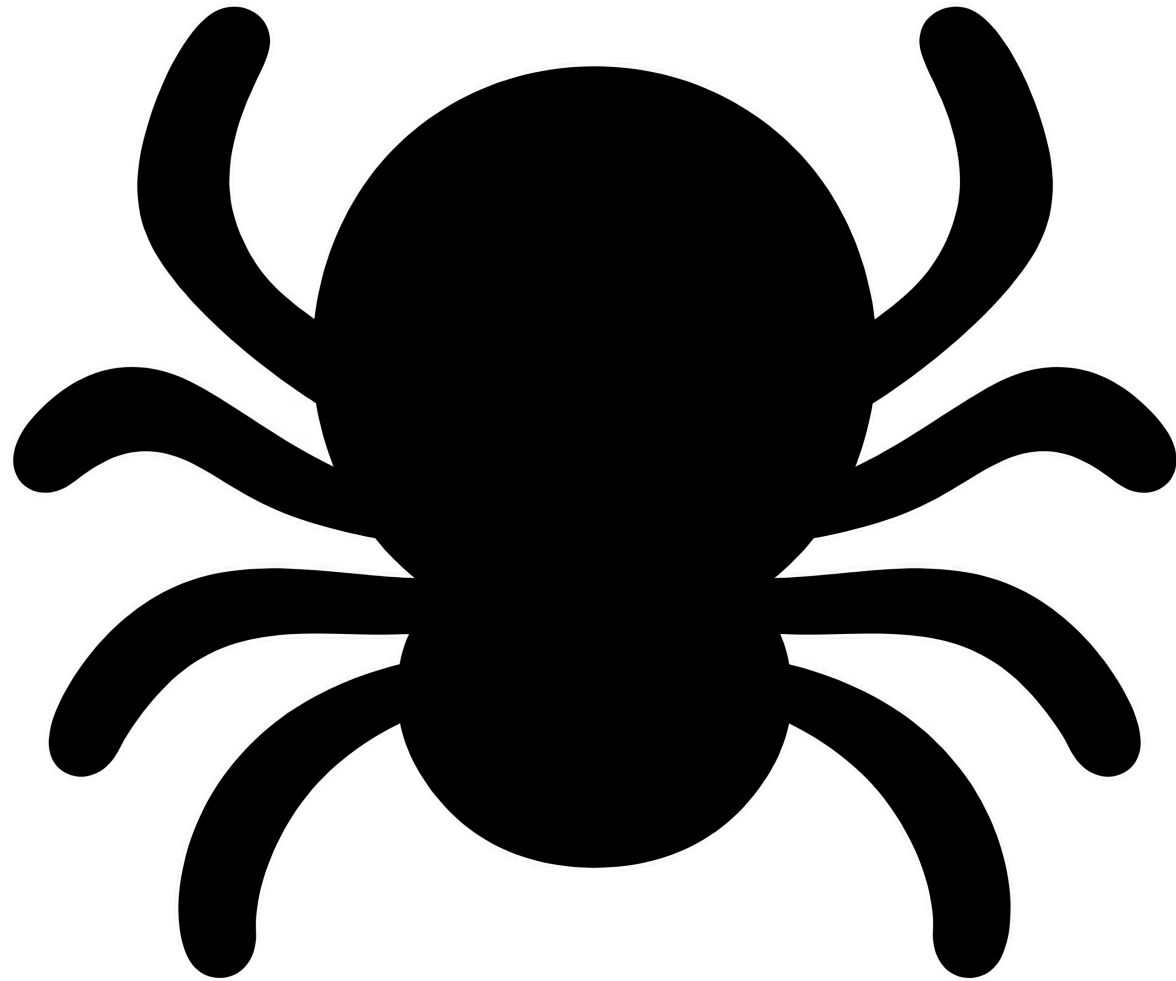

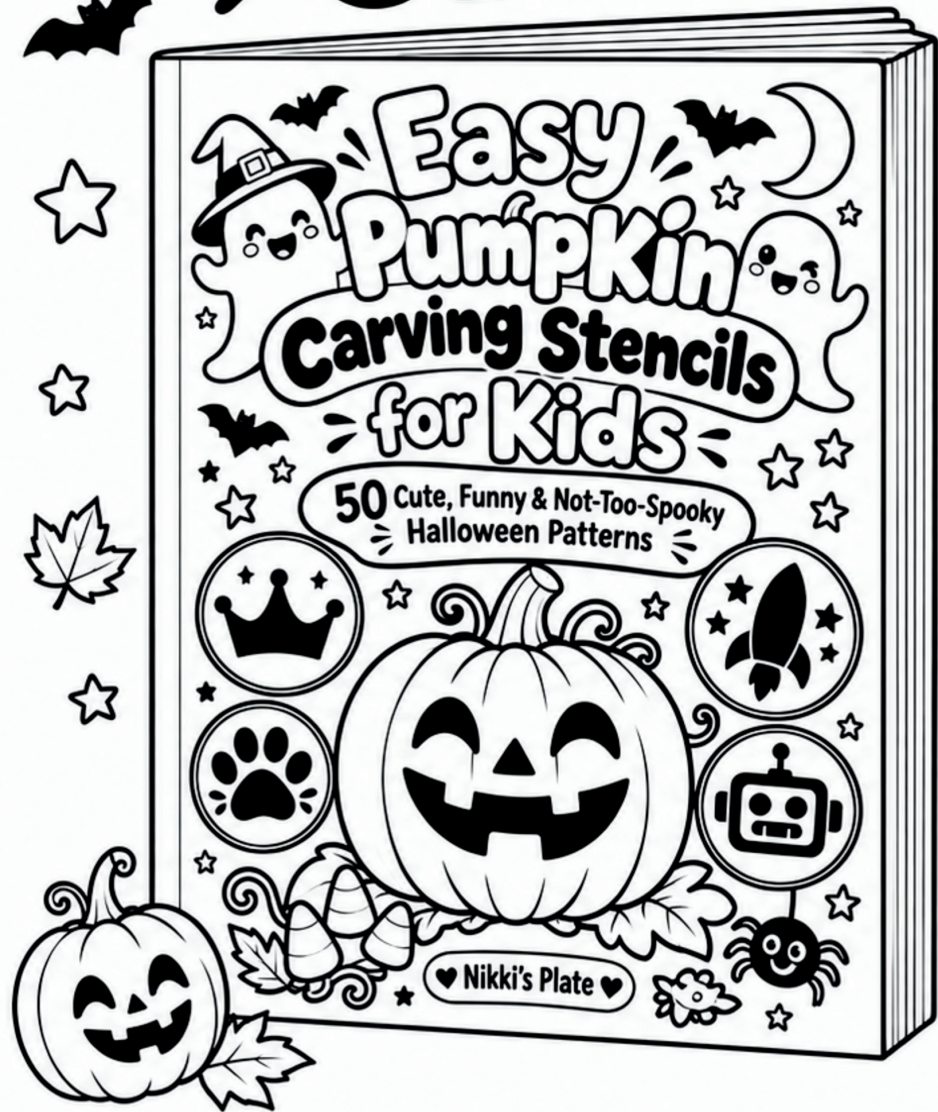

**BOO**

# LOVE THESE FREE STENCILS? GET 50 MORE!

Keep the pumpkin-carving fun going with my Easy Pumpkin Carving Stencils for Kids book! Inside are 50 cute, funny, and not-too-spooky Halloween patterns made for kids, beginners, and family carving nights.
