North Pole Gift Mix-Up

A CHRISTMAS LOGIC PUZZLE

Ivy, Pip, and Noel are North Pole elves. Each elf gets one gift. The gifts are mittens, a toy train, and a tin of cookies. Use the clues to find out who gets each gift.

THE CLUES

1. The toy train belongs to someone other than Ivy or Noel.
2. Noel's present is something you can wear.

Solve the puzzle

Use an X to cross off a possibility and a check mark to show a match.

	Mittens	Toy Train	Tin of Cookies
Ivy			
Pip			
Noel			

Who gets each gift?

Ivy gets: _____

Pip gets: _____

Noel gets: _____

North Pole Gift Mix-Up

HOST SOLUTION • KEEP SEPARATE

Completed grid

A check mark shows the correct gift. An X shows a gift that does not belong to that elf.

	Mittens	Toy Train	Tin of Cookies
Ivy	✗	✗	✓
Pip	✗	✓	✗
Noel	✓	✗	✗

THE SOLUTION

Ivy gets the tin of cookies.

Pip gets the toy train.

Noel gets the mittens.

Why this is the only solution

Clue 1 rules out Ivy and Noel for the toy train, so Pip gets it. Clue 2 tells us Noel gets the mittens, the only gift you can wear. That leaves the tin of cookies for Ivy.
